

# Wheat Varietal Master List – 28 July 2009

**Disclaimer** - This document is intended only to provide grade information for the receipt of wheat. The information in this document may be amended from time to time. Interested parties should regularly check the GTA or WCC web site for any amendments or alterations to any printed information in this document. Although reasonable care has been exercised in the preparation of this document, no representation or warranty is made as to the accuracy, completeness or reliability of the information. Interested parties should make their own enquiries as to the accuracy of any information. Please always seek the latest information by contacting the GTA or WCC web sites.

*Please note:* - That the classification grade indicates the highest possible receipt grade available for respective varieties. - That some or all of the varieties listed in the table below may be protected by PBR
